

# BRONZE LIFT

**Smart. Smooth. Strong.**  
passionately elevating beyond limits

[www.bronzelift.com](http://www.bronzelift.com) | [info@bronzelift.com](mailto:info@bronzelift.com)

The “BRONZE” in our name represents our commitment to quality, innovation, and skilled design.

We're here to elevate **innovation** and **design** in elevators to the next level.

### **VISION**

To be an innovative and agile lift brand, passionately implementing best practices and adapting to our clients' needs globally.

### **MISSION**

To develop innovative products that meet our customers' unique needs by combining the highest quality materials with accurate engineering practices and groundbreaking designs.

### **VALUES**

**Passion:** Driven by a love for elevators, we strive to provide unparalleled services worldwide.

**Safety:** Safety is our top priority in production, engineering, and usage.

**Collaborative Approach:** We work closely with our customers to offer creative solutions that make their lives easier.

**Flexibility:** We design and implement tailored solutions that address unique customer needs.

**Continuity:** We support our customers at every stage, from order to installation, with uninterrupted, high-quality service

# Tailored Mobility for Every Need

From elevators and escalators to consulting and modernization services, Bronze Lift delivers fully customized mobility solutions shaped by technical expertise and a deep commitment to client satisfaction. Every project is approached with precision, reliability, and a passion for excellence.

## 01 **Design Excellence**

Our sophisticated design philosophy is ready to excite you.

## 02 **Elevators**

Our elevators combine precision and elegance, built to impress, designed to perform.

## 03 **Escalators**

Engineered for reliability, refined for modern environments.

## 04 **Moving Walks**

Built for seamless transit, designed to complement any space.

## 05 **Other Products**

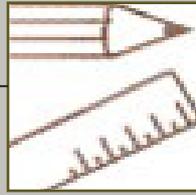

Beyond elevators and escalators, we deliver smart, inclusive, and purposeful mobility solutions.

## 06 **Services**

Our experience is your advantage.

## 07 **Online**

Where expertise meets e-commerce.

# 01 Architecture Meets Elevation

Every building whispers its own story. At Bronze Lift, we listen. Our elevators are born not just of mechanics, but of emotion, inspired by the rhythm of Modernism, the elegance of Art Deco, and the bold lines of Avant-garde architecture. We design movement that mirrors meaning.

Design is not a layer. It is the language of movement.

## StrideX

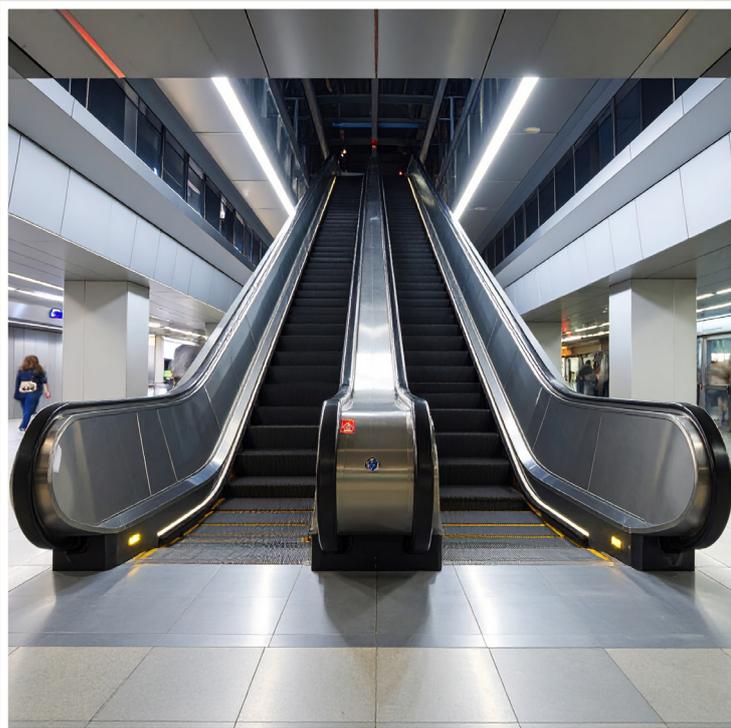

### The Premium Edge of Escalation

#### StrideX Com

Seamless mobility for sophisticated spaces.

StrideX Com is a quiet, reliable escalator solution crafted for retail, office, and hospitality environments. With clean lines and understated elegance, it blends effortlessly into contemporary architecture ensuring smooth, energy-efficient movement, day after day.

Inclination .....	30 / 35
Step width .....	600 / 800 / 1000
Horizontal Step .....	800 / 1200
Speed (m/s) .....	0,5
Climatic Condition .....	Indoor / Outdoor
Max Rise .....	7,5m

#### StrideX Transit

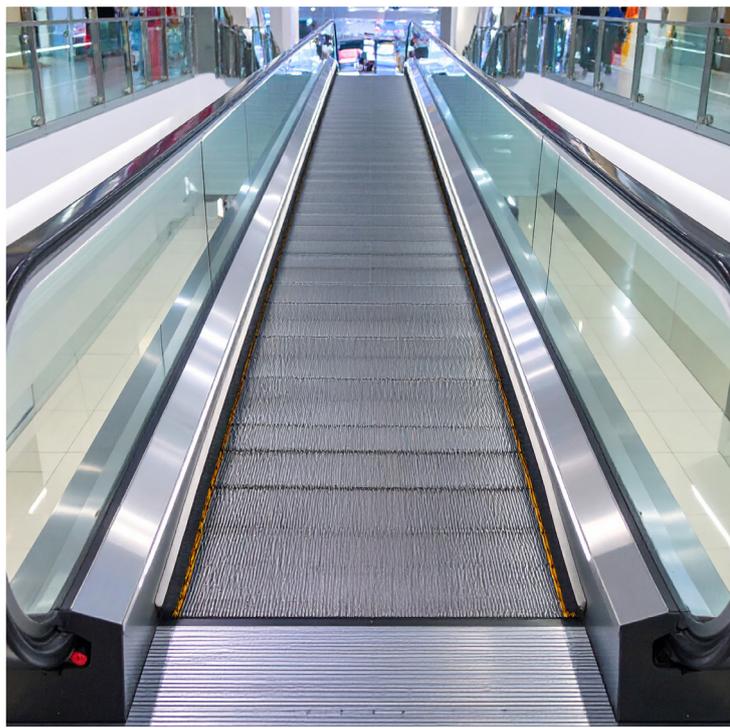

Durability in motion

StrideX Transit is built for high-capacity environments such as metro stations, airports, and public transit hubs. Designed for durability and safety, it offers consistent performance in demanding conditions – with a clean, modern aesthetic that suits today’s public spaces.

Inclination	27,3 / 30 / 35
Step width	600 / 800 / 1000
Horizontal Step	800 / 1200 / 1200
Speed (m/s)	0,5 / 0,65
Climatic Condition	Indoor / Outdoor
Max Rise	15m

# 04

## StrideX Continuous Smooth Flow

### StrideX Glide

Glide into efficiency

StrideX Glide offers quiet, uninterrupted horizontal mobility for modern commercial spaces.

Designed to adapt across inclines and layouts, it ensures fluid transitions with minimal visual impact all with the comfort of smooth, effortless movement.

Inclination	10 / 11 / 12
Pallet width	800 / 1000
Horizontal Pallet	400
Speed (m/s)	0,5
Climatic Condition	Indoor / Outdoor
Max Rise	7,5m

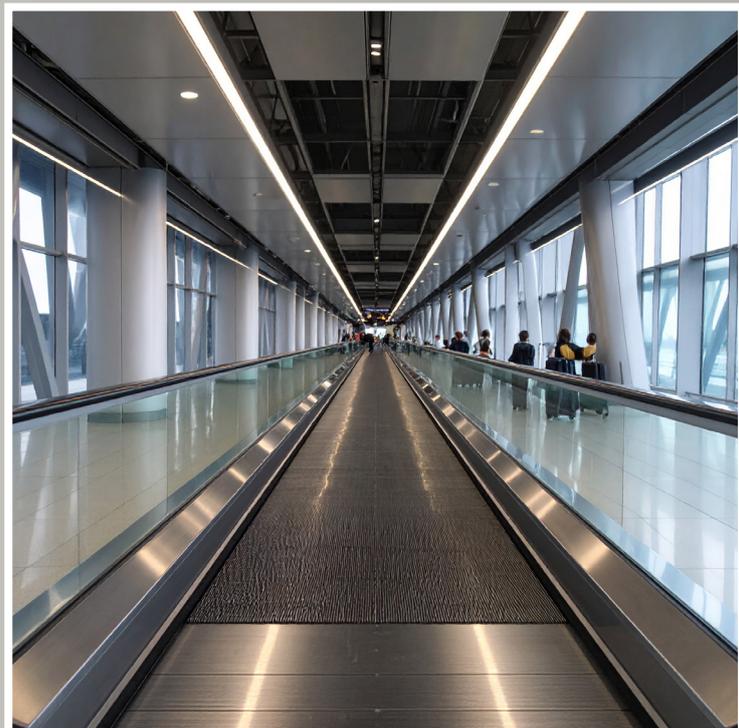

### StrideX Flow

Designed for distance

StrideX Flow delivers quiet, continuous horizontal transport for expansive public environments.

Built for long distances and heavy foot traffic, it ensures steady, efficient movement with a clean design that integrates effortlessly into large-scale architecture.

Inclination	0 / 6
Pallet width	1000 / 1200 / 1400
Horizontal Pallet	N/A
Speed (m/s)	0,5 / 0,65
Climatic Condition	Indoor / Outdoor
Max Length	20 - 120m

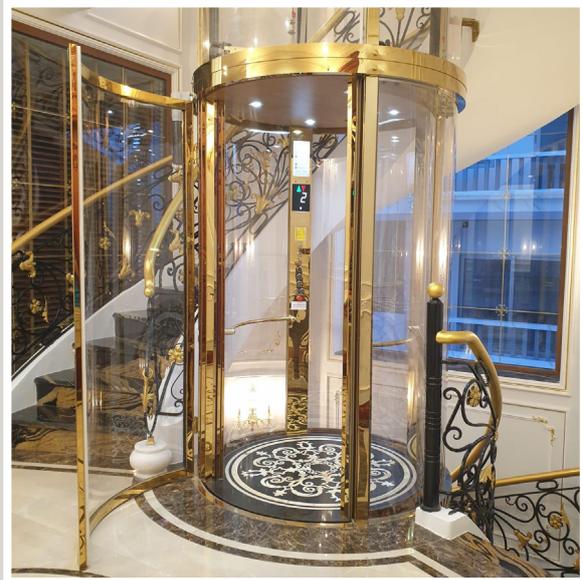

# 05 Mobility, Wherever It's Needed

Vertical transport systems designed for service areas, restricted spaces, and accessibility needs where precision, practicality and adaptability matter most.
